

MEMBERSHIP PROSPECTUS

WHO WE ARE

The Eclipse Foundation provides our global community of individuals and organizations with a mature, scalable, and business-friendly environment for open source software collaboration and innovation. The Foundation is home to the Eclipse IDE, Jakarta EE, and **425+** open source [projects](#), including runtimes, tools, specifications, and frameworks for cloud and edge applications, IoT, AI, automotive, systems engineering, open processor designs, and many others.

The Eclipse Foundation is supported by **350+** [members](#) who value the Foundation's governance framework, open innovation processes, collaborative [Industry Collaborations](#) model, and [community-building events](#). Our members include industry leaders who have embraced open source as a [key enabler for business strategy](#).

OUR UNIQUE APPROACH

Our value proposition is simple and unique. We are community-driven, code-first, and commercial-ready.

Over the last 15 years, we have earned our community-driven and business-friendly reputation by providing a home for open source projects proven to deliver high quality, scalable, and sustainable code that enterprises can use to build commercial products, grow revenues and drive market adoption. Business value and profits can then be reinvested in Eclipse projects and our developer community.

The key to our approach are our **Eclipse Industry Collaborations**, which provide an open and vendor-neutral governance framework for individuals and organizations to engage in collaborative development for specific technology domains.

THE OPPORTUNITY

Organizations join the Eclipse Foundation because they want to take an active role in supporting sustainable, commercializable open source technologies that benefit all and to demonstrate the value of those open source technologies to the success of their businesses.

Our members:

- » **Participate** in a thriving developer community, and provide contributions to the Eclipse projects they rely on
- » **Protect** their strategic investments by participating in defining priorities for advancing the technologies they care about, avoiding leaving the features, quality, and sustainability of important technologies to others or to chance
- » **Share** costs and innovation, especially on projects that represent core capabilities “below the value line”, while focusing their resources on rapidly building differentiated features that customers value most
- » **Benefit** from ensuring they comply with antitrust laws while sharing intellectual property and embedding clean intellectual property into their commercial products
- » **Prosper** by sharing open source commercialization best practices with industry peers
- » **Promote** their accomplishments and demonstrate their good corporate citizenship through contributions to open source projects

THE ECLIPSE FOUNDATION GOVERNANCE MODEL

The Eclipse community consists of individual developers and organizations spanning many industries. The community participates in Eclipse open source projects, organized under top-level projects that provide oversight and guidance. Each top-level project has a charter and scope and is governed by a Project Management Committee.

Eclipse Working Groups extend the best practices of the Eclipse Foundation's collaborative open source development model to specific technology domains. In addition, Eclipse Working Groups enable collaboration on business functions important to the broader open source initiative, including the shared development of requirements, specifications, marketing strategy, and security policies. These unique industry collaborations span a variety of innovation areas, including cloud-native enterprise Java, IoT, Edge Computing, the connected automotive mobility ecosystem, and other emerging technology domains. Explore all of our [Working Groups](#).

The Eclipse Foundation is funded by annual dues from our [members](#) and governed by a [Board of Directors](#). The Foundation employs a full-time [professional staff](#) to provide services to the community.

KEY SERVICES OF THE ECLIPSE FOUNDATION

DEVELOPMENT PROCESS

The Eclipse community has a well-earned reputation for providing high-quality software, reliably and predictably. The Eclipse Foundation provides services and supports to help projects consistently achieve their goals. Our staff assists new projects in implementing the [Eclipse Development Process](#), a set of procedures and rules that form our best practices.

IP MANAGEMENT

We focus on enabling the use of open source technology in commercial software products and services. All Eclipse projects are licensed under the [Eclipse Public License \(EPL\)](#), a commercial friendly, OSI approved license. In addition, the Eclipse Foundation due diligence process helps to validate the pedigree of the intellectual property contained in Eclipse projects.

ECOSYSTEM DEVELOPMENT AND MARKETING

The Eclipse Foundation's vendor-neutral [marketing programs](#) promote Eclipse community growth and engagement, drive awareness and discoverability of projects and working groups and increase the commercial adoption of Eclipse technologies. The Foundation coordinates and implements a variety of activities, including content creation, press and analyst relations, community events, advertising, social media management, and other programs to promote the entire Eclipse community and increase engagement.

IT INFRASTRUCTURE

The Eclipse Foundation provides vendor-neutral, reliable and scalable services for Eclipse technology developers and users. IT infrastructure services delivered to the Eclipse community include source code repositories, build infrastructure, development-oriented mailing lists and newsgroups, a download site, and website.

MEMBERSHIP AT THE ECLIPSE FOUNDATION

The Foundation offers four levels of membership:
Strategic, Contributing, Associate, and Committer.
Collectively, these levels of membership comprise the
Eclipse Membership-at-Large.

BENEFITS BY MEMBERSHIP LEVEL

Strategic Members

Strategic Members play an integral role in the Eclipse ecosystem. Strategic members are organizations that view participation in Eclipse projects as strategic to their business and are investing significant developer and other resources to further drive Eclipse technology. Typically, Strategic Members lead one or more top-level project. Strategic membership benefits include:

- » A seat on Board of Directors of Eclipse Foundation
- » A seat on Foundation councils, including both the Planning and Architecture councils
- » Intellectual Property Analysis and Reporting
- » Help to launch Open Source initiative(s)
- » Direct influence through Board voting rights on key aspects of the Eclipse ecosystem, including licensing, governing policy development, project reviews, and amendments to Membership Agreement and Bylaws
- » Significant discounts towards sponsorship and attendance of Eclipse Foundation run events such as EclipseCons
- » Access to Eclipse Foundation marketing and advertising programs
- » Ability to lead in the establishment of Working Groups
- » Access to Information (mail lists, attend members-only meetings)
- » Show of support (logo exchange, etc.)

Contributing Members

Contributing Members are organizations that view Eclipse technologies as important to their corporate and product strategy and offer products and services based on, or with, Eclipse technologies. These organizations want to participate in the development of the Eclipse ecosystem. Contributing membership benefits include:

- » Voting rights for board representation, project reviews, and amendments to Membership Agreement and Bylaws
- » Significant discounts towards sponsorship and attendance of Eclipse Foundation run events such as EclipseCons
- » Access to Eclipse Foundation marketing and advertising programs
- » Ability to participate in Working Groups
- » Access to Information (mail lists, attend members-only meetings)
- » Show of support (logo exchange, etc.)

Associate Members

Associate Members are organizations that participate in and want to show support for, the Eclipse ecosystem. Many research and educational institutions choose to join as an Associate member.

Associate membership benefits include:

- » Access to Information (mail lists, attend members-only meetings)
- » Ability to join select Eclipse Working Groups as a Guest member
- » Show of support (logo exchange, etc.)

Committer Members

Eclipse Foundation's governance model provides individual committers with the ability to become full members and includes representation on the Eclipse Board of Directors. Committer Members are individuals that are the core developers of the Eclipse projects and can commit changes to project source code.

Learn more about [Committer membership](#) in the Eclipse Foundation.

MEMBERSHIP FEES

The Membership-at-Large Annual Fee Comparison Chart based on membership levels is provided below for illustration purposes only. Please see the [Eclipse Membership Agreement](#) for full details.

	Annual Eclipse Foundation Membership Fees		
Annual Corporate Revenues	Strategic	Contributing	Associate
> €1 billion	€300 000	€25 000	€25 000
€100 million - €1 billion	€180 000	€17 500	€17 500
€50 million - €100 million	€125 000	€12 500	€12 500
€10 million - €50 million	€60 000	€9 000	€9 000
< €10 million	€30 000	€6 000	€6 000
< €1 million & fewer than < 10 employees	€30 000	€1 500	€1 500
Govt, Govt agencies, Research Organizations, NGOs, etc.	€30 000	€6 000	€0
Academic, Publishing Organizations, User Groups, etc.	€30 000	€1 000	€0

HOW TO JOIN AS A MEMBER OF THE ECLIPSE FOUNDATION

Once you have chosen the level of membership (e.g., Strategic, Contributing, Associate, Committer):

Complete the [Membership Application Form](#)

If you are unable to complete this form online, you can use the PDF form and agreements:

- [Membership Application](#)
- [Membership Agreement](#)
- [Member Committer and Contributor Agreement](#) (optional, but recommended)

And [email us](#) the signed documents.

Note: Membership in an Eclipse Working Group requires the execution of that Working Group's Participation Agreement. For more information view our [list of the current Eclipse Working Groups](#).

A black and white photograph of a modern hallway with large glass windows. Several people are walking through the hallway, their figures blurred to convey a sense of motion. The lighting is bright, and the floor is polished.
